

Bloom Later

Jesse Rutherford

Leaving you
Is so hard to do
Keeps me blue 'til I...
Every time you glow
Then I start to grow
Can't do it alone anymore in the dirt
Even when it rains, I need your little rays
Some things never change even when they hurt

Where you goin'? I'm too fast
You say whatchu doin'? Don't do that
Never been a liar, I'm a lilac and you are my sun
And every season I need you to come back

When you're gone
Sky turns crimson
So I wait for the dawn 'til I...
Every time you shine
You help me define
How to remind myself what it's worth
Even when it rains, I need your little rays
Some things never change even when they hurt

Where you goin'? I'm too fast
You say whatchu doin'? Don't do that
Never been a liar, baby, I'm a lilac and you are my sun
And every season I need you to keep glowing

Come back, glowing
Come back, glowing
Come back, glowing
Come back

Where you goin'? I'm too fast
You say whatchu doin'? Don't do that
Never been a liar, baby, I'm lilac and you are my sun
And every season I need you to come back
