

(Rockstar)

I want a different experience
I want a different experience now
I used to be so curious
When did it get so serious?
How did I get so far from where I started out?
I want a different experience
Give me something to care about

Get me out of my head (Get me out, get me out, get me out)
Like a fly in a spiderweb
Tryin' to fly away, but my wings can't spread
I can feel you coming and the closer that you get
Got me sick to my stomach
Scared to death

Give me this, give me that
Give me something to distract
Me from myself for a second
My reflection, looking back, broken glass
Made me crack, all I wanna do is laugh
Made me cry, same old sh-
Don't get me high, like it did
Holy sh-, flip a switch, turn me on, like a TV
Eenie-meenie-minie-moe, I'm popping wheelies
Ace Frehley, just a little, need a kiss
Tongue out, bite your lip
When it clicks, better know, I'm just going with the flow

I want a different experience
I want a different experience now
I used to be so curious, when did it get so serious?
How did I get so far from where I started out?
I want a different experience
Give me something to care about

Let the faucet run, kill everyone
Coming for your head, make you bite your tongue
Never thought revenge would be so much fun
Oh, oh, oh
