

Yeah, yeah, yeah, yeah, yeah, yeah, yeah
(Sorry if I'm actin' weird)

Mhm, I'm okay when I'm not by myself
I'm alright if you stick with me
And if you notice I start actin' strange
It's only 'cause I don't know how to explain

I wanna talk about me but I don't know how
So we can talk about this weed, how'd it get so loud?
Life isn't all a dream but I'm still in the clouds
Cracked a couple of the codes, time to level up now
I used to feel like the world was mine but
Now it feels like I'm fallin' behind
Whiskey on the rocks with a straw and a lime
I tried but I'm

At the bottom of the deep end
I'm havin' problems when I'm sleepin'
And if there's somethin' I can do just tell me
I'm so lucky, I can't believe it
You love me even at my weakest
And if there's somethin' I can do just tell me

I'm okay when I'm not by myself
I'm alright if you stick with me
And if you notice I start actin' strange
It's only 'cause I don't know how to explain

Feel it in my sleeve when I'm sleepin'
Hard time dreamin'
Life is such a hard thing lately
Start to question why my momma made me
I was hoping if you're home you could call me up (on a call, babe)
If you ever want to talk and stuff (if you do)
Either way, it's all love
I just wanna know how you're feelin'

At the bottom of the deep end
I'm having problems when I'm sleepin'
And if there's somethin' I can do just tell me
I'm so lucky, I can't believe it
You love me even at my weakest
And if there's somethin' I can do just tell me

I'm okay when I'm not by myself
I'm alright if you stick with me (you alright?)
And if you notice I start actin' strange
It's only 'cause I don't know how to explain
