

# MY WAR

Jesse Rutherford

(Rockstar)

I'm ballin', watch me cross over while you fallin'  
Straight to the league, didn't need to go to college  
Third eye opened, so I see it as a calling  
Born in California, favorite rapper's from New Orleans  
This is my war, feel like Henry Rollins  
No skeletons in my closet  
Been gassed up, just been stallin'  
Ain't nothin' that we got in common

What you see's what you get  
UV's on my neck, VV's, break a sweat  
Overseas, gettin' checked  
Main squeeze  
Packin' pounds in the jeans, make 'em stretch  
Good weed, ain't stressed  
Don't need antidepressants  
Nothin' free, never is  
I got everything I could fit  
All my dreams as a kid came true, now I'm it

I'm ballin', watch me cross over while you fallin'  
Straight to the league, didn't need to go to college  
Third eye opened, so I see it as a calling  
Born in California, favorite rapper's from New Orleans  
This is my war, feel like Henry Rollins  
No skeletons in my closet  
Been gassed up, just keep stallin'  
Ain't nothin' that we got in common

Won't cry no more  
Can't cry no more, I promise  
From now on, I'm only ballin'

I got more money and I got more problems  
Usually I feel like a dead man walkin'  
Queen bee in the hive, couple shooters outside  
Never know who's watching  
No, I've been buzzin' for a while by now  
'Til you see somebody with my style by now  
Real G's roll in silence  
Haven't cried for a while, but I'm high right now

I'm ballin', watch me cross over while you fallin'  
Straight to the league, didn't need to go to college  
Third eye opened, so I see it as a calling  
Born in California, favorite rapper's from New Orleans  
This is my war, feel like Henry Rollins  
No skeletons in my closet  
Been gassed up, just keep stallin'  
Ain't nothin' that we got in common
