

Roses

Jesse Rutherford

And the award goes to Jesse
(Bambina, Valentina, Josephina
Those are my background singers)

Not what I expected, don't know what to say
Lot of people helped me here along the way
Thank you to my mom for giving me the grace
And thank god for my sister always keeping faith
And thank you to my daddy for leaving
Oh Steven, rest in peace, I'ma keep on grieving
Wishing you were here to see this
But everything happens for a reason
Thank you, Kirk, for believing in me first
Seen me at my best and got me through my worst
Found me on the internet in 2010
Damn, you really put the man in management
Gotta thank my brothers from the neighbourhood
There for each other whether bad or good
Who knows where I'd be without them?
My best friends, coming back in 20

This one's for you
For all we've been through
I think you deserve it
Long overdue
This one's for you
Got one for me too
Roses are red
You got me out of the blue

Danny's always in it for the long run
Whatever it takes to get the song done
All the time he's given me is priceless
Sacrifice many nights for the bounce
I can count on Beef for it all
Hit the road, rock a show, write a song
Long drives and long phone calls
That's my dog, day one till the day that I'm gone
Knew it from the moment that I met Dweez
I found a soulmate and a bestie
Anytime I'm tripping, he'll catch me
Anywhere I'm going, he's with me
Henry, thank you for your patience
Waiting through all of my phases
And I gotta make a special dedication
To Michael for the motivation, ooh

This one's for you
For all we've been through
I think you deserve it
Long overdue
This one's for you
Got one for me too
Roses are red
You got me out of the blue

Thank you, Julie, thank you, Craig, thank you, Busy, Ian Cripps

Thank you, Jason Davis, thank you, Rich Christina, you're the best
Thank you, Peter, thank you, Marty, I can't forget
Thank you to my ex, and my other ex
Hope you're doing well and having really awesome sex
And when you look back at all the time we spent
Feels like it wasn't just a waste or a regret
I'm grateful for the good, the bad, the ugly, and the rest
Thank you, Valentina, I'm as lucky as it gets
Gave your rose to me like we're on the Bachelorette
Every time we kiss, my heart skips a beat in my chest
I am too blessed
Who's next?
Benny Blanco, Finneas, Dahi, Derek Ted
Cashmere Cat
James Stein, Gabe Noel, thank you, Drew Erickson
Nile Rodgers, yeah
Pino Pallidino, Will Van Zandt
Stargate, Kenny Beats, and

This one's for you
For all we've been through
I think you deserve it
Long overdue
This one's for you
Got one for me too
Roses are red
You got me out of the blue, ooh yeah

Love me, oh, love me now
Love me, oh, love me now
Love me, oh, you love me, oh, why would I ever doubt?
