

## Be Yerself

Jesse Welles

I ain't going out tonight  
And you ain't making me feel bad  
I got a book I can read  
And the world'll still be  
Here when I get back

They can tell you what to do  
But it ain't much use  
It's for your health  
You gotta be yourself

Be yourself  
In the summer  
Be yourself  
In the spring  
In the winter  
Be yourself  
In the autumn  
Just to do your thing  
It's important to be  
It's important to me  
It's important whatever you be  
To be yourself

I ain't staying in tonight  
And you ain't making me feel mean  
I know they're calling for rain  
But my mind's in pain  
I gotta see if I can get it clean

They can tell you what to do  
But it ain't much use  
It's for your health  
You gotta be yourself

Be yourself  
In the summer  
Be yourself  
In the spring  
In the winter  
Be yourself  
In the autumn  
Just to do your thing  
It's important to be  
It's important to me  
It's important whatever you be  
To be yourself
