

In The Morning

Jesse Welles

In the morning
In the sunshine
Don't I know it's gonna be a brighter day?
Don't it take a little raining to wash away the yesterdays?

In the forest by the stream
There's an endlessness to thee
I know
Honey, you were meant to be
Everything that you will be
Do you know how great you are?
It's so wonderful to see

In the morning
In the sunshine
Don't I know it's gonna be a brighter day?
Don't it take a little raining to wash away the yesterdays?

A thousand years will go so fast
You will blink and they will pass
It's true
Everything you're gonna be
Needs every moment that you breathe
Nobody eats the fruit
The day they plant the seed

In the morning
In the sunshine
Don't I know it's gonna be a brighter day?
Don't it take a little raining to wash away the yesterdays?

In the circle we go 'round
Don't you let it get you down
My love
From on high the dawn shall break
All we got to do is wait
You may not know it now
But you got everything it takes

In the morning
In the the sunshine
Don't I know it's gonna be a brighter day?
Don't it take a little raining to wash away the yesterday?
