

Keep Movin

Jesse Welles

Enchanted by the panic
I wish I was simple
Plain like the rain
Runnin' right down the middle
Everything inside me was hot
Everything inside me wasn't plain
I was lookin' everywhere for the man
Everybody told me I could blame

But I gotta keep-a movin'
Keep movin' on
'Cause staying still could kill me and you
If we wait for too long
Yeah, I gotta keep-a movin'
Keep movin' on
Almost every night, somethin' ain't right
But I don't know what's wrong, yeah

Sail me out of this hell, Virgil
They poisoned the well
And I can't drink here now
Saint Steve Irwin, I'm a child
And I'm certain there are wild crocodiles
Won't you choke them out?
Everything I'd ever seen
Was piled high into a dream
I was worried about forgettin'
But I remember everything

So I gotta keep-a movin'
Keep movin' on
'Cause staying still could kill me and you
If we wait for too long
Yeah, I gotta keep-a movin'
Keep movin' on
Almost every night, somethin' ain't right
But I don't know what's wrong

Yeah, I can work this out
I can fight through the pain
There's light at the end of the tunnel
Then again, it could be the train
Yeah, I can work this out
Nothing's holdin' me back
There's hope on the horizon
Or maybe the Earth's just flat

Nostalgia on a rope bridge and swaying to dementia
That's the tune that they were playin'
I coulda I heard someone laugh
As we were leaving Pangaea
It was fine for the time
Then again, I'll see ya when I see ya

'Cause I gotta keep-a movin'
Keep movin' on
'Cause staying still could kill you and me

If we wait for too long
Yeah, I gotta keep-a movin'
Keep movin' on
Almost every night, somethin' ain't right
But I don't know what's wrong

Yeah, I can work this out
I can fight through the pain
There's light at the end of the tunnel
Then again, it could be the train
Yeah, work this out
Nothing's holdin' me back
There's hope on the horizon
Or maybe the Earth's just flat

I can work this out
I can fight through the pain
There's light at the end of the tunnel
Then again it could be the train
Yeah, I can work this out
Nothing's holdin' me back
There's hope on the horizon
Or the Earth's just flat
