

Locusts

Jesse Welles

When the locusts fly in
On the winds of the past
Don't the mighty come down
Don't the first become last
Don't they blot out the sky
Don't it happen real fast
When the locusts fly in
On the winds of the past

Don't the kings run and hide
Don't the queens follow suit
Don't the joker change courts
Don't the joker change tunes?
When the locusts fly in
And they're comin' real soon
Don't the kings run and hide
Don't the queens follow suit

Nothin's gonna change me
Nothin's gonna change me
Nothin's gonna bring me down
When the locusts fly in
Bring on the wind
Right now

When the locusts fly in
On the winds of change
Don't the holy man cry
As it's comin' in range
Don't the mothers all sigh
As the times get strange
When the locusts fly in
On the winds of change

Don't the locusts fly in
On the winds of time
Don't they come bearing gifts
For you and for I
And they don't come too soon
They come right on time
When the locusts fly in
Don't it feel alright

Nothin's gonna change me
Nothin's gonna change me
Nothin's gonna bring me down
When the locusts fly in
Bring on the wind
Right now
