

## That Debate

Jesse Welles

Last night I saw an archeological wonder  
On the ESPN of war and lies  
CNN's death rattle  
An ancient species battled  
Two fossils tryna poke each others eyes

Mom and dad are fighting in Atlanta  
I'm online pricing lobotomies  
I don't wanna get no dumber  
But it's better than this bummer  
Of believing in a false dichotomy

They open up their mouths  
And nothing comes out  
It's gonna take a lot more than the speed

I can't discern Verne  
I can't perceive Steve  
I don't understand, Jan  
I don't know Joe  
I don't know Joe

Last night I took a trip to the museum  
I sat and stared at wax figurines  
They gummed for about an hour  
Fighting over power  
Pathetic old and sad as they could be

Last night I saw the circle close around us  
As I sat and thought about Déjà vu  
And the sound that met my ears  
Made all hope disappear  
Jus' what constitutes elder abuse

I can't discern Verne  
I can't perceive Steve  
I don't understand Jan  
I don't know Joe  
I don't know Joe
