

Turtles

Jesse Welles

Turtles, ooh-oh-oh
Carrying their home on their back
Making their way down the turtle track, yeah

Turtles, ooh-oh-oh
They got places to go and things to see
And they don't need you and they don't need me
Telling them where they got to be
They're gonna rest their heads neath the shady tree

Turtles, ooh-oh-oh
Some turtles like to live out in the ocean
Some turtles like to live on land
Every turtle likes to make a comfy nest
And lay its babies in the turtle sand
Turtles don't need a whole lot
They're pretty independent dudes
They need clean water
And clean air
About the same things as we need up here

Turtles, ooh-oh-oh
Turtle time

Turtle don't be a stranger
You ain't gotta be a turtle park ranger
To tell that the turtle might be in danger
We're gonna need to make some changes around here

Turtles, ooh-oh-oh
Turtle time

Turtles, ooh-oh-oh
Turtling down the line
This turtle is feeling fine

Turtles, ooh-oh-oh
They got places to go and things to see
And they don't need you and they don't need me
Telling them where they got to be
They're gonna rest their heads neath the shady tree

Turtles, ooh-oh-oh
