Will The Computer Love The Sunset

Jesse Welles

Some nights I tell the sky our story
And I don't have to say a word
Words are useless in the cosmos
Words are stupid and absurd

Some nights I tell the stars our story
How we raised intrepid generals
Taught them to fight for paper money
For invisible lines and minerals
I tell a tale

Will the computer love the sunset
Will we midwife our demise
Can it calculate my love and
Will it know how to be kind
U can't jus rewind

Some nights I plead into the skyland
Some nights I scream into the void
Some nights I feel like I'm a man
Other nights I'm jus a boy

In between the time between the time between the time
I'm gettin
U don't find out much of nuthin
Ain't that sumthin
Guess that's the fun in
Livin

Some days I talk to the horizon
I do my damndest not to swear
Some days I plead with the horizon
It don't even know I'm there
I sure do care

Some nights I tell the sky our story
I promise her we do our best
I think that I might die from laughin
At the infinite jest
I need some rest

In between the time between the time between the time
I'm gettin
I don't find that much of nuthin
Ain't that sumthin
Guess that's the fun in
Livin

In between the time between the time between the time
I'm gettin
You don't find out much of nuthin
Ain't that sumthin
Guess that's the fun in
Livin

In between the time between the time between the time
I'm gettin

```
You don't find out much of nuthin
Ain't that sumthin
Guess that's the fun in
Livin
```
