

Hard On Easy Street

Jessi Colter

I'm feeling a little restless change
Warm up the limousine
And take me to the top of some old mountain
Let me out, I'll be alright
It's just that things got hard
On Easy Street tonight

It's hard on Easy Street sometimes
Blue on Easy Street some days
I thought our place in the sun
Was made in the shade
But it ain't no bed of roses
Up on Easy Street these days

Don't worry about your gold
My heart's not that cold
I'm only taking two things when I leave
One life so I can live it
One love so I can give
Where I please

Hard on Easy Street sometimes
Blue on Easy Street some days
I thought our place in the sun
Was made in the shade
But it ain't no bed of roses
Up on Easy Street these days

I thought our place in the sun
Was made in the shade
But it ain't no bed of roses
Up on Easy Street these days
