

Here I Am

Jessi Colter

You walk away into the sunset
You stop, take one last look at me
I feel that look wash warm all over
Here I am, here I'll stay

We've been together but a short time
Your fingertips have learned my face
Your hands on me have lightened every darkened place
Here I am, here I'll stay

When I awake and find the morning sun
As much a part of me as you
My heart can't hold the love that flows from me to you
Here I am, here I'll stay

If you would leave, so would the sunrise
Stay near, let your warm hands kindle me
A thousand days, a thousand ways I've needed you
Here I am, here I'll stay

Here I am, here I'll stay
