

It's All Over Now

Jessi Colter

When I was loving you I gave all I had to give
You took that love I gave you took my will to live
You didn't want me then babe what brings you back in now
I hear you talking but just keep walking it's all over now

You should have seen this is just how it could be
If you kept your walking then you did all over me
You might have been kind you might have say that all somehow
I hear you talking but just keep walking it's all over now

How does it feel to be on the other side
Drop down to your knees sneak out of your pride
What you should remember how you kept me there so long
I hear you talking but just keep walking it's all over now

Maybe the next you'll know what you're looking for
Maybe you can give her all she needs and more
You didn't have the love I needed I don't need it now
I hear you talking but just keep walking it's all over now
