

Secret Place

Jessi Colter

You know what you're doing
You're doing for me
You know where you're going
You'll help me to see

'Til then I'll be hiding in
The shadow, of your wings
Right here in the secret place
For what your victory brings

Let me mount up with wings
Like an eagle, in the sky
Renewing my string
And you are [?]
Running the race
May I never grow tired
I'm walking in [?]
I will not fain
I'll stay in your shadow
And think our words through
Your word is my lifeline
I'm counting on you
You've taken this sparrow
Rejected and bruised
You pulled him through
Lifting him higher, to an eagle's view

You showed me your glory
And you set me free
And I'll tell the story
Of how you saved me

'Til then I'll be hiding in
The shadow, of your wings
Right here in the secret place
When your victory brings

Let me mount up with wings
Like an eagle, in the sky
Renewing my string
And you [?]
Running the race
May I never grow tired
I'm walking in [?]
I will not fain
I'll stay in your shadow
And think our words through
Your word is my lifeline
I'm counting on you
You've taken this sparrow
Rejected and bruised
You pulled him through
Lifting him higher, to an eagle's view
