

# Without You

Jessi Colter

I hear you're going away.  
I've come here to beg you to stay.  
If you go, I will surely die.  
If you go, I won't even try

To live life without you.  
I won't fight without you.

R :Without you I can't go on  
Without you I've got no song to sing.

Without you standing there  
I don't even care for anything.

Without all the love you give,  
You won't find me wanting much to live.

Without you, I can't go on.  
Without you, I've got no song to sing.

R :Without you I can't go on  
Without you I've got no song to sing.

Without you standing there  
I don't even care for anything.

Without all the love you give,  
You won't find me wanting much to live.

Without you, I can't go on.  
Without you, I've got no song to sing.

R :Without you I can't go on  
Without you I've got no song to sing...
