

All I Need... (1)

Jessi

All I need is time to breathe, boy
Pack my things
All I need is time to breathe, boy
Pack my things
There's not always reason for the things in life
(Life can be unfair)
And sometimes, you've gotta let love just slide
(I need to move on but boy)
I know it's gonna be hard
But I'll pull through or I'll never get over loving you
I gotta get over you before
It's just too late (Hey, come on, baby)
I'm just tryna live
And make my way through life (Give me my space)
I'm lettin' you know, baby, what's on my mind
(I hope that you feel the same)
This feeling inside is hurting me
So I need to get away from all this pain
We've gotta let go and just turn the other way
All I need is time to breathe
Boy, pack my things
Make a quick getaway
I've had enough and taken chances on love
I will be strong though
It's hurting me inside that you're not in my life
But I've gotta let you go, baby
It's time to find a way to get on with my life
We've gotta separate
Baby, it's difficult for me to explain (How I feel, boy)
I need to let go of you and stay focused
(Why am I actin' like this?)
I know it wouldn't be the same without you
I just need some time to relieve my mind
We've gotta let go and just turn the other way
All I need is time to breathe
Boy, pack my things
Make a quick getaway
I've had enough and taken chances on love
I will be strong though
It's hurting me inside that you're not in my life
But I've gotta let you go, baby
It's time to find a way to get on with my life
We've gotta separate
I'm gonna move on and get over you
I know I can stand upon my own
Baby, I'm gonna move on
I can stand upon my own
All I need is time to breathe
Boy, pack my things
Make a quick getaway
I've had enough and taken chances on love
I will be strong though
It's hurting me inside that you're not in my life
But I've gotta let you go, baby
It's time to find a way to get on with my life
We've gotta separate
All I need is time to breathe

Boy, pack my things
Make a quick getaway
I've had enough and taken chances on love
But I've gotta let you go, baby
