

Missin' U

Jessi

Your eyes are like the shining stars in heaven
The love we shared was never meant to die
You can be my soulmate, my best friend
I just wanna live for you, baby
Call me whenever you want 'cause I'll be there for you
But now that you're gone, I just can't get over you

I think about you baby, everyday
But now you've gone so, so far away
Without you, baby
Life just ain't the same
Baby, I'm missin' you
I think about you baby, everyday
But now you've gone so, so far away
Without you, baby
Life just ain't the same
Baby, I'm missin' you

I never thought I'd find somebody like you
I wished upon a star and it came true
I hear your name in every word that I say
Can't let something this special just slip away
My tears on the pillow, I'm crying over you
But now that you're gone, I just can't get over you

I think about you baby, everyday
But now you've gone so, so far away
Without you, baby
Life just ain't the same
Baby, I'm missin' you
I think about you baby, everyday
But now you've gone so, so far away
Without you, baby
Life just ain't the same
Baby, I'm missin' you

Now that you're gone, I'm feeling miserable
Where did I go wrong?
I'm so confused
You're just too good to lose
Where did we go wrong?
I'll always love you, deep in my heart, deep in my heart
Baby, won't you stay?
I'll always love you, deep in my heart, deep in my heart
Baby, won't you stay?
I'll always love you, deep in my heart, deep in my heart
Baby, won't you stay?
I'll always love you, deep in my heart, deep in my heart
Baby, won't you stay?

I think about you baby, everyday
But now you've gone so, so far away
Without you, baby
Life just ain't the same
Baby, I'm missin' you
I think about you baby, everyday
But now you've gone so, so far away

Without you, baby
Life just ain't the same
Baby, I'm missin' you
I think about you baby, everyday
But now you've gone so, so far away
Without you, baby
Life just ain't the same
Baby, I'm missin' you
I think about you baby, everyday
But now you've gone so, so far away
Without you, baby
Life just ain't the same
Baby, I'm missin' you
