

# Numb

Jessi

Monday you picked up  
Tuesday you sat me down  
Why you gotta do that?  
Wednesday you found me  
Thursday I found you out  
Yeah, why you gotta do that?

Cause the weekend is my free time  
The weekend is my girls night  
The weekend is the reason I'm alive  
The weekend got me tossed up  
But you just got me fucked up  
But you wanna be the best thing now

All my tears are liquor going down down  
I don't give a damn how it looks right now  
I just wanna drink til I go dumb dumb  
So I can't just forget that I'm numb numb numb  
Throwing up all the emotions  
You're so quick to close up when I'm open  
I'm just gonna drink til I go dumb dumb  
So I can't just forget that I'm numb numb numb

Saturday you cut me  
But Sunday I cut you off  
Church made me do that  
And now you want some FaceTime  
Like you ain't even done no wrong  
Yeah, Siri can you block that?

Cause the weekend is my free time  
The weekend is my girls night  
The weekend is the reason I'm alive  
The weekend got me tossed up  
But you just got me fucked up  
But you wanna be the best thing now

All my tears are liquor going down down  
I don't give a damn how it looks right now  
I just wanna drink til I go dumb dumb  
So I can't just forget that I'm numb numb numb  
Throwing up all the emotions  
You're so quick to close up when I'm open  
I'm just gonna drink til I go dumb dumb  
So I can't just forget that I'm numb numb numb

I'm tryna figure out if it's last call  
I'm looking at my phone for your missed calls  
I'm gone and you can't see it  
But I know I still have feelings

All my tears are liquor going down down  
I don't give a damn how it looks right now  
I just wanna drink til I go dumb dumb  
So I can't just forget that I'm numb numb numb  
Throwing up all the emotions  
You're so quick to close up when I'm open

I'm just gonna drink til I go dumb dumb  
So I can't just forget that I'm numb numb numb
