

Tell Me

JESSIA

I'm a mess but I can't express any of it to you
Waking up knowing we're not in love
Just try and swallow that truth

I don't need my life to be that fancy
I just want to share it with you
Don't you try and tell me that you're sorry
What the fuck is that gonna do?

I hate even when everything's going right
I miss you
I hate needing to be alone cause my mind is sick too
I hate holding on to every single word you said but you never meant
Tell me did you mean it
When you said you didn't feel it

Say goodbye made it another night without calling you
Friend or foe we're denying what we know
So let's keep throwing stones

Cause I don't need my life to be that fancy
I just want to share it with you
Don't you try and tell me that you're sorry
What the fuck is that gonna do

I hate even when everything's going right
I miss you
I hate needing to be alone cause my mind is sick too
I hate holding on to every single word you said but you never meant
Tell me did you mean it
When you said you didn't feel it

Have I lost my mind
We keep running from the signs
Have I lost my mind

I hate even when everything's going right
I miss you
I hate needing to be alone cause my mind is sick too
I hate holding on to every single word you said but you never meant
Tell me did you mean it
When you said you didn't feel it
