

# Heart Shaped World

Jessica Andrews

This ain't the planet I've been living on  
It don't circle round the sun  
Ever since the day you came along  
Everything I do revolves around you  
You're my only one

Cause I'm waking up to love  
I'm crossing new frontiers  
Living in a heart shaped world  
And I'm starting to see that we could stay forever hear  
Living in a heart shaped world

Now everybody knows the earth is round  
Chris Columbus showed us that  
Call me crazy but I think I've found  
A reason to believe  
Maybe history should review the facts

Now I'm walking up to love  
I'm crossing new frontiers  
Living in a heart shaped world  
And I'm starting to see that we could live forever hear  
Living in a heart shaped world

I've heard that love can turn you world around  
But you have changed the shape of my world somehow  
Everything I do revolves around you  
Now I'm walking up to love  
I'm crossing new frontiers  
Living in a heart shaped world  
And I'm starting to see that we could live forever here  
Living in a heart shaped world
