

trust issues

Jessica Baio

[Verse 1]

Did you notice you were driving past me
Riding in the back seat when I saw you with her?
Eighty-three days since you ended things
But it feels like last week I was wearing your shirt

[Pre-Chorus]

'Cause I'm
Staying in while you go out tonight
To everywhere we went when you were mine
Running out of ways to make me cry and I'm tired

[Chorus]

You don't pay no rent to live in my head
I think it's about time that you up and left
I'm over wasting tissues
'Cause I don't wanna miss you
You don't pay no rent to live in my head
I guess you never meant a single word you said
Thought that I could trust you
But now I got trust issues

[Verse 2]

Is it crazy that I still have your things?
They sleep next to me the way that you used to
Just the thought of you, it honestly stings, all the memories
You're the only reason I don't feel like me

[Pre-Chorus]

I tried, I tried, I tried to reach you (To reach you)
You don't know what you want and now I don't either, mh-mm

[Chorus]

You don't pay no rent to live in my head
I think it's about time that you up and left
I'm over wasting tissues
'Cause I don't wanna miss you
You don't pay no rent to live in my head
I guess you never meant a single word you said
Thought that I could trust you
But now I got trust issues

[Instrumental Outro]
