

I'm Not Lonely Anymore

Jessica Lea Mayfield

i feel safe now
i feel good
i'm not lonely anymore
i've got something i shouldn't have
and it's you

and i've got you to hold me tight
and i've got you to call when i'm sad
and i've got you to kiss me goodnight
please don't ever leave me behind

when i'm alone i crave your touch
oh i could never get too much
when i lay asleep i dream of you
i'm in too deep now there's nothing i can do

and i need you to hold me tight
and i need you to call when i'm sad
and i need you to kiss me goodnight
please don't ever leave me behind

if you want you can call i will stay awake for you
if you tell me that you love me
and you only want me only
and you never want another love
