

Maybe Whatever

Jessica Lea Mayfield

The shotgun's under the futon
This is not my idea of fun
I wish happiness on everyone I know

The human body's an amazing thing
Bruises heal and your mind can change
Can we convince ourselves we're not what we need?

Did I know in my heart I was lying to you
When I said I would be yours forever?
Did I know in my heart I was lying to you?
Maybe
I can't trust myself

You say that the evil I don't know
Is worse than the evil I do know
But I'd rather not know anyone at all

Did I know in my heart I was lying to you
When I said I would be yours forever?
Did I know in my heart I was lying to you?
Maybe
But whatever

The shotgun's under the futon
This is not my idea of fun
I wish happiness on everyone I know
