It's Christmas

Jessica Lowndes

When the seasons change
And summer ain't too far
I cross my fingers, count the days
And in no time at all
Winter's at my doorstep knocking
I can hardly wait
I feel it in my bones
So Christmas, don't be late

'Cause in my soul I know
That nothing good can stay
But since we're in the moment
Let's have ourselves a holiday

It's Christmas
You can feel the magic in the air
Yeah these lights and snow
And this mistletoe
And this music playing everywhere
It's Christmas
It's my favorite time of year
When the bells are ringing
The people singing
It fills my heart with cheer
It's Christmas

Presents wrapped with care
Beneath the Christmas tree
And ornaments from years gone by
Are full of memories
This year I've got you to share it
I can't hardly wait
But the best is yet to come
So Christmas, don't be late

'Cause in my soul I know
That nothing good can stay
But since we're in the moment
Let's have ourselves a holiday

It's Christmas
You can feel the magic in the air
Yeah these lights and snow
And this mistletoe
And this music playing everywhere
It's Christmas
It's my favorite time of year
When the bells are ringing
The people singing
It fills my heart with cheer
It's Christmas

Know it's been a hard year
But there's good things on their way
So let's keep our spirits high
And let's have ourselves a holidays

It's Christmas
You can feel the magic in the air
Yeah these lights and snow
And this mistletoe
And this music playing everywhere
It's Christmas
It's my favorite time of year
When the bells are ringing
The people singing
It fills my heart with cheer
It's Christmas
