

# Summertime

Jessica Lowndes

Been down but I'm on my way up again now  
Don't care if we crash, I don't wanna slow down

If it's fantasy just let me dream  
Stay here in this moment  
'Cause it's everything to fall asleep  
And wake up knowing

Feels like summertime  
All the time  
When I'm with you  
When I'm with you  
Searching all my life  
I feel alive  
When I'm with you  
When I'm with you

Storm's clear, nothing's bringing me, bringing me down  
Felt scared but this feels like a miracle now

If it's fantasy just let me dream  
Stay here in this moment  
'Cause it's everything to fall asleep  
And wake up knowing

Feels like summertime  
All the time  
When I'm with you  
When I'm with you  
Searching all my life  
I feel alive  
When I'm with you  
When I'm with you

It feels like  
It feels like summer  
It feels like  
It feels like summer

Feels like summertime  
All the time  
When I'm with you  
When I'm with you  
Searching all my life  
I feel alive  
When I'm with you  
When I'm with you

Feels like summertime all the time  
When I'm with you  
When I'm with you  
When I'm with you
