

Turn You Away

Jessica Lowndes

You make me feel so good
I drink you like medicine
I didn't know if I should

And now I'm somewhere I never been
Back in fort, side to side I can't get you out my head
No

I'm thinking bout hands on you
hands on me I know that should be the end
I can turn you away
I can turn you away
Your the blood in my veins
I can turn you away

No
Do you feel what I feel
Runing on a traveling
Is it love? is it real

Back in fort, side to side I can't get you out my head
No

I'm thinking bout hands on you
hands on me I know that should be the end
I can turn you away
I can turn you away
Your the blood in my veins
I can turn you away

No
No
What ever done to my heart
You cut it right out of me
I'm bleeding I can't make it stop
Can you fix this please

I can turn you away
I can turn you away
Your the blood in my veins
I can turn you away
I can turn you away
I can turn you away
Your the blood in my veins
I can turn you away

No, no
No, no
No, no
