

# Barriers

Jessica Mauboy

I I thought I really had it all  
I I never really had to fall in love again  
For a life full of happiness (yeah)  
Taught my heart to never have a say  
Since the day I built a barricade and closed it in  
Nobody was getting in

Call me a fool cause I was running a mile  
Call me a fool cause I was so in denial  
Somehow you found a way to make me wanna change  
I don't wanna turn back now

Cause this is the moment the barrier's broken  
I'm finally gonna let it out  
Now my mind stopped thinking my heart's now taken  
The barriers are breaking down  
The future was frozen reality poisoned  
Till the day you came around  
Got my world to start spinning out  
The barriers are breaking down

This this world can be a funny place  
Just like that I'm in a different space holding on  
This time I ain't letting go  
I hear the way my feelings fall so long  
So deep you you brought them back to the surface  
And then you showed me why it was worth it

Call me a fool cause I was running a mile  
Call me a fool cause I was so in denial  
Somehow you found a way to make me wanna change  
I don't wanna turn back now

Cause this is the moment the barrier's broken  
I'm finally gonna let it out  
Now my mind stopped thinking my heart's now taken  
The barriers are breaking down  
The future was frozen reality poisoned  
Till the day you came around  
Got my world to start spinning now  
The barriers are breaking down

Think once think twice  
And you're thinking way too much  
I gotta let my heart outside

Cause this is the moment the barrier's broken  
Oh it's broken  
Oh it's broken

Cause this is the moment the barrier's broken  
I'm finally gonna let it out  
Now my mind stopped thinking my heart's now taken  
The barriers are breaking down  
The future was frozen reality poisoned  
Till the day you came around  
Got my world to start spinning now

The barriers are breaking down
