

Closer

Jessica Mauboy

Pinch me, am I still breathing
Lines blurred and colours bleeding
I trace your figure with my hands
Hang on, the words your speaking
I've never known this feeling
Your moves have got me in a trance

And I don't mind at all
Come closer, come closer
Heaven only finds me here with you
In this moment, this moment
Loving you is all I want to do
Too much is not enough
You let go and I need your touch again
Come closer, come closer
Heaven only finds me here with you

You set the pace, I'll follow
In deep but taking it slow
We won't be running out of time
I'll meet you in the middle
Just say the word and I'll go
Where ever I'll be at your side

And I don't mind at all
Come closer, come closer
Heaven only finds me here with you
In this moment, this moment
Loving you is all I want to do
Too much is not enough
You let go and I need your touch again
Come closer, come closer
Heaven only finds me here with you

Come closer, come closer
Too much will never be enough
This moment, this moment
One step I can almost feel your touch

Come closer, come closer
Heaven only finds me here with you
In this moment, this moment
Loving you is all I want to do
Too much is not enough
You let go and I need your touch again
Come closer, come closer
Heaven only finds me here with you

Come closer, come closer
Too much will never be enough
This moment, this moment
One step I can almost feel your touch
