

Flashback

Jessica Mauboy

Some days I frown, fall into ground
Feel the lump, my throat burns in the cold
I get scared, no, no, no
I get scared, no, no, no

Flashback, I'm frozen, oh my God
Standing right in front of the one I'm gonna love
If you feel love, get it
Protect it no matter what
A million thoughts just left my head
Forgetting my philosophy
Flashback, I'm frozen, oh my God
Woah-ah-ah-oh-oh

Some ways I found, floating like clouds
Butterflies around, weightless like sound
And I'm there, yeah, yeah, yeah, yeah
And it's rare, yeah, yeah, yeah, yeah

Flashback, I'm frozen, oh my God
Standing right in front of the one I'm gonna love
If you feel love, get it
Protect it no matter what
A million thoughts just left my head
Forgetting my philosophy
Flashback, I'm frozen, oh my God
Woah-ah-ah-oh-oh

Every step I take, I feel amazin'
And I feel my feet lift in the air
Think I always heard you callin' when my dreams were bad
Yeah (Yeah-hey, hey, hey, hey)

Flashback, I'm frozen, oh my God
Standing right in front of the one I'm gonna love (One I'm gonna love
)
If you feel love, get it
Protect it no matter what
A million thoughts just left my head
Forgetting my philosophy

Flashback, I'm frozen, oh my God
Feelin' like I'm five, it's my birthday, oh
If you feel love, get it
Protect it no matter what
Love I felt [?]
Is when you're standing next to me
Flashback, I'm frozen, oh my God
Standing right in front of the one I'm gonna love
