

Jealous

Jessica Mauboy

I don't wanna waste this
But would you wait a minute
Don't get yourself twisted yeah

I'm not being arrogant
Promise you can have it
Just give me a second

You know we make magic
We don't have to say anything at all
(At all, at all, at all)
Got all night to make it happen
You will get it when I say so

But first
Imma make you jealous
(Jealous, jealous, jealous)
Imma make it worth it
(Worth it, worth it, worth it)
'Cause there's something about you, I cannot help it
But I'm doing what I like
This ain't a ballad, maybe it's selfish, but
Imma make you jealous

Got my name on your lips
Yeah I got you convinced
There's nothing else like this

Giving you a bonus
'Cause you know I'm gonna
Take you to nirvana

You know we make magic
We don't have to say anything at all
(At all, at all, at all)
Got all night to make it happen
You will get it when I say so

But first
Imma make you jealous
(Jealous, jealous, jealous)
Imma make it worth it
(Worth it, worth it, worth it)
'Cause there's something about you, I cannot help it
But I'm doing what I like
This ain't a ballad, maybe it's selfish, but
Imma make you jealous
(Jealous, jealous, jealous)
Imma make you jealous
(Jealous, jealous, jealous)

Conversation with our bodies
I talk the talk, give what I need
Don't go misunderstanding me
Damn, ah
Imma put a smile on your face
Serving dessert upon your plate

Just gotta ask me politely

But first

Imma make you jealous

(Jealous, jealous, jealous)

Imma make it worth it

(Worth it, worth it, worth it)

'Cause there's something about you, I cannot help it

But I'm doing what I like

This ain't a ballad, maybe it's selfish, but

Imma make you jealous

(Jealous, jealous, jealous)

Imma make you jealous

(Jealous, jealous, jealous)

Conversation with our bodies

I talk the talk, give what I need

Don't go misunderstanding me

Damn, ah

Imma put a smile on your face

Serving dessert upon your plate

Just gotta ask me politely

But first

Imma make you jealous
