

# The Day Before I Met You

Jessica Mauboy

Got me walking on the sun  
Got me flying to the moon  
Got me talking to myself  
When nobody's in the room  
That's what you do to me  
Yeah, yeah, yeah

Got me losing track of time  
Every moment I'm with you  
When the day turns into night  
My sky is always blue  
That's what you do to me  
Yeah, yeah, yeah

And I remember the day everything changed  
You got me with one touch  
Boy what the hell, tripped and I fell in love  
Ohhh

What did I do without you here  
How did I breathe when you're my air  
If I had a time machine  
I would never go back, go back  
To the day before I met you

Na na na na na na  
The day before I met you  
Na na na na na na  
The day before I

Got your picture on my screen  
I can see you all the time  
I can't get you out my dreams  
I can't get you off my mind  
That's what you do to me  
Yeah, yeah, yeah, yeah

And I remember the day everything changed  
You got me with one touch  
Boy what the hell, tripped and I fell in love  
Ohhh

What did I do without you here  
How did I breathe when you're my air  
If I had a time machine  
I would never go back, never go back  
To the day before I met you

Na na na na na na  
The day before I met you  
Na na na na na na  
The day before I met you  
Na na na na na na  
The day before I met you  
Na na na na na na  
The day before I

I remember the day everything changed  
You got me with one touch  
Boy what the hell, tripped and I fell  
Yeah boy I fell in love

Woahhhh  
Ohhhhhhhh

What did I do without you here  
How did I breathe when you're my air  
If I had a time machine  
I would never go back, never go back  
To the day before I met you

Na na na na na na  
The day before I met you  
Na na na na na na  
The day before I met you  
Na na na na na na  
The day before I met you  
Na na na na na na  
The day before I met you

The day before I met you
