

Don't Pull Away

Jessica Simpson

Solitude is so inviting
When your heart is torn in two
Once more you retreat into silence
As a heartache comes in view
Standing here in its shadow
I know you feel alone
But you can trust me
I won't let you face it on your own

Don't pull away
I'll be here for you
Don't pull away
Together we can make it through
I'm faithful and your friend
No matter what I'm gonna stay
Close by you to the end
Don't pull away

Well, I care so much about you
I'll remind you constantly
That Jesus cares so much more deeply
And you can imagine her belief
He's your strength, he'll sustain you
He's brought you this far
Stay near as he leads you
As he whispers to your heart

Don't pull away
I'll be here for you
Don't pull away
Together we can make it through
I'm faithful and your friend
No matter what I'm gonna stay
Close by you to the end
Don't pull away

I'm faithful and your friend
No matter what I'm gonna stay
Close by you to the end

Don't pull away
I'll be here for you
Don't pull away
Together we can make it through
I'm faithful and your friend
No matter what I'm gonna stay
Close by you to the end

Don't pull away
I'll be here for you
Don't pull away
Together we can make it through
I'm faithful and your friend
No matter what I'm gonna stay
Close by you to the end
Don't pull away
