

## Particles

Jessica Simpson

It's been like a year since I've been home  
Flirting with an addiction I can't shake off  
My mouth is dry, I self-medicate  
This comedown won't cure itself

It's driving you away, it's driving you away  
Piece by piece, day by day

Baby  
Tell me if I'm being strange  
And if I need to rearrange  
My particles, I will for you  
My particles, I will for you

And I'm a shadow of a ghost  
Feeling as if somebody has taken host  
Babe, I don't wanna make a scene  
But I get self-destructive

It's driving you away, it's driving you away  
Piece by piece, day by day

Baby  
Tell me if I'm being strange  
And if I need to rearrange  
My particles, I will for you  
My particles, I will for you

Oh doctor please, this don't feel right  
Oh, can't you give me something to get me through the night?  
Oh, if it all falls apart, if the thing goes wrong  
Oh, put me back together however you want

My mind plays tricks  
And I don't sleep no more  
Doctor, please  
Can't switch off

Baby  
Tell me if I'm being strange  
And if I need to rearrange  
My particles, I will for you  
My particles, I will for you
