

Reckoning

Jessica Simpson

Verse 1

I'll tell the stars about you
From the stones on the wishing well
I'll pray you're dreamin' that, too
Gilded spirit love spell

Chorus

I reckon it's a reckoning
My heart and soul awakening
The skies of Tennessee
Constellation calling me
To another place and another time
Serenity to clear my mind
This constant poetry
All of me surrendering
All through the night, held by the light
I don't ever wanna leave
I'm awake in my dream
Awake in my dream

Verse 2

I need to break the sameness
Smile through the pain and let it be
Oh, how loving changed us
A different you and a different me

Chorus

I reckon it's a reckoning
My heart and soul awakening
The skies of Tennessee
Constellation calling me
To another place and another time
Serenity to clear my mind
This constant poetry
All of me surrendering
All through the night, held by the light
I don't ever wanna leave
I'm awake in my dream
Awake in my dream
I reckon it's a reckoning
My heart and soul awakening
The skies of Tennessee
Constellation calling me
To another place and another time
Serenity to clear my mind
This constant poetry
All of me surrendering
All through the night, held by the light
I don't ever wanna leave
I'm awake in my dream
Awake in my dream
