

COMES IN WAVES

Jessie J

I don't remember a day
I haven't thought of your face
That my little heart couldn't make
You slipped away
I know why you came
To light up the way
There's no one to blame
You just slipped away

Wish I could have you back
So I could talk to you
Never felt so sad
Nothing you could do

It comes in waves
Like I'm drowning in a love I crave that you gave to me
And I hate
How much I miss the future that we never made
I'm holding onto hope
With me everywhere I go
Comes in waves
Next time you come to me, I'll make a place for you to stay
Comes in waves, yeah

Like someone holding your hand
Then saying they can't
And you don't understand
You're just on your own

Wish I could have you back
So I could talk to you
Never felt so sad
Nothing you could do

Comes in waves
Like I'm drowning in a love I crave that you gave to me
And I hate
How much I miss the future that we never made
I'm holding onto hope
With me everywhere I go
Comes in waves
Next time you come to me, I'll make a place for you to stay

I'm sorry, I'm sorry that we never met
That the plans I made, they were never set
I promise you this, I won't forget
The time we spent
You were heaven sent to me
The love I felt for you would overflow
But I didn't know you would come and go
And now you're flying high in my sky

Comes in waves
Like I'm drowning in a love I crave that you gave to me
And I hate
How much I miss the future that we never made
Holding onto hope

You're with me everywhere I go

Comes in waves
