

# FEEL IT ON ME

Jessie J

Falling from my eyes, have to heal this in the darkness  
So turn off all lights, can't be sorry for my joy  
I can no longer disguise all the pain that comes with growing  
I had to surrender to the silence in the noise

You couldn't hear me  
And I couldn't feel you  
So hard to listen when we both won't take the blame  
It gets so toxic  
Like, am I what I wanted?  
Complain I get burnt but I stand so close to the flame

It was okay when I could feel it on me  
But it ain't okay if you can feel it on me  
Feel it on me  
Feel it on me

I'm holding on so tight  
Will you let it go tomorrow?  
Always been the type to sink in my control  
Up against the wall trying find my way back over  
What's on the other side, we both wanna know

You couldn't hear me  
And I couldn't feel you  
So hard to listen when we both won't take the blame  
It gets so toxic  
Like, am I what I wanted?  
Complain I get burnt but I stand so close to the flame

It was okay when I could feel it on me  
But it ain't okay if you can feel it on me  
Feel it on me  
Feel it on me

Ain't okay, ain't okay  
Feel it on me  
Ain't okay, ain't okay  
Ain't okay, ain't okay  
Ain't okay, ain't okay
