

Top Of My List

Jessie James Decker

Some people want a new car
Some want a shining bracelet of gold on their arm
Some people want diamond rings
Oh the ladies choose the expensive things

But this year it's clear
I got it all right here

You're the only thing that I want
You're the only wish, only kiss, only gift that I need
You're the one, only one
Ain't nothing better than this
You're at the top of my list

I like the way that you smile
Yeah your expression is a present, never goes out of style
When I got you by my side
My heart starts thumping like I'm on a sleigh ride

This year it's clear
I got it all right here

You're the only thing that I want
You're the only wish, only kiss, only gift that I need
You're the one, only one
Ain't nothing better than this
You're at the top of my list

You're the thing that I'm grateful for, yeah
I'm like the kid in a candy store
How could I ask for more

You're the only thing that I want
You're the only wish, only kiss, only gift that I need
You're the one, only one
Ain't nothing better than this
You're at the top of my list

You're at the top of my list
You're at the top of my list
You're at the top of my list
