[Jessie Reyez:]

Fight just to fuck just to fight again  
World war three justified in bed  
Mess me up, now we ain't even friends  
But the truth is I'm kind of tired of  
Pretending that I was the guilty one  
I wasn't feeling up no one but you  
Lessons that I just can't seem to learn  
I never thought you'd leave me two for two  
Again

Lights out, Strike out, I doubt  
You'll ever find anyone  
These bitches can't measure up  
Lights out, Strike out, I doubt  
You'll ever find anyone  
These bitches can't measure up  
To my Ankles  
Levels? Na  
Levels? Na  
Ankles  
These bitches don't make it to my ankles

Strippers and liquor and cigarettes  
Apologized but your twitter said no regrets  
I'd kill for a mute button in my head  
You alright but I'm tired of  
Pretending that I was the guilty one  
I wasn't feeling up no one but you  
Lessons that I just can't seem to learn  
I never thought you'd leave me two for two  
Again

[Rico Nasty:]  
Why its always me that gotta feel bad, you left me in a heartbeat quick, fast  
Couldn't handle me in the quicksand but you want me to hold you down like a kickstand  
Fuck you and whoever, I know that I'm better, shout at me whenever  
You show her the truth, must suck to be you , you can't be as selfish , she won't be amused  
You can't do right cuz the bitch left you  
And its crazy cuz you had me looking crazier than crazy does  
It won't ever go back to the way it was, she's not on my level, you could've done better  
She wanna get under my skin but , I never could let  
I'm fly as a feather, baby its levels oh baby its levels, ha

[Melii:]  
Oh my God, there's your bitch  
Oh my God, you make me sick  
As ...and drippin in money and thick but I'm back on my shit  
I bet she doesn't ride it like I used to ride it  
I did so hypnotic, that pussy psychotic  
Feast on it baby like body to body  
The way that I do it compare to nobody  
Y esa esa niña ni ma da por los tobillos  
Jesús  
Tu sabes lo pongo bien sencillo  
Saying lights out, lights out I doubt you'll find anyone  
To measure up to me boy

[Jessie Reyez & Melii:]

[Jessie Reyez:]

Two feet, you're shallow too real

I know too real, back where you high

Backwards two feet, you're shallow too real

I know two steps, backwards you high

Backwards boy
