

What's left to say? Free to follow
Maybe some day, same time tomorrow
Take me somewhere, with a world less silent
Every breath rings like a siren, like a siren

Every night, every sign
Every word, fills me up on us

0208, always
Hear you calling my name
You give me that 6742558
Give me the time, call you mine some day
0208, always, always, always

What's it gonna take to believe?
What's it gonna take to believe?
What's it gonna take to believe?
What's it gonna take to believe me oh?

0208, always
Hear you calling my name
You give me that 6742558
Give me the time, call you mine some day
0208, always, always, always

You know that I wanna get lost sometimes
Is it too late to talk?
Baby you know what I want tonight
It's you, it's you
Can we get lost sometimes?
Is it too late to talk?
Baby you know what I want tonight
It's you, it's you, it's you
