

Please

Jessie Ware

I want a place
Where golden moments last forever
Face to face
You look like someone I could treasure, ah ah

I can't help it when the vision lifts
Cause I wanna be next to you
Oh I gotta be next to you
I'm a little superstitious
Cause I wanna be next to you
Oh I gotta be next to you

So please
Show me you know to be sweet (sweet, sweet)
Don't you be too good to believe
I could be the girl of your dreams (dreams, dreams)
If you wanna get in my life (life, life)
Listen, always care to play nice (nice, nice)
You want yours I gotta get mine
I'll give you the world if you
Please me, please me
We can make it mutual

Ooh, ahh
Do you need company?
Do you belong to me?
Ooh, ahh
We can make it mutual

I'll give you a little if you give me a little
So don't upset the rhythm tonight
Heaven's where we're headed
I meant it when I said it
If you want yours, I gotta get mine

I can't help it when the vision lifts
Cause I wanna be next to you
Oh I gotta be next to you
I'm a little superstitious
Cause I wanna be next to you
Oh I gotta be next to you

So please (please, please)
Show me you know to be sweet (sweet, sweet)
Don't you be too good to believe
I could be the girl of your dreams (dreams, dreams)
If you wanna get in my life (life, life)
Listen, always care to play nice (nice, nice)
If you want yours I gotta get mine
I'll give you the world if you
Please me, please me
We can make it mutual

Ooh, ahh
Do you need company?
Do you belong to me?

I'll give you a little if you give me a little
