

Superbloom

Jessie Ware

You know me the best of all
Let's play unpredictable
You know your way around me
Yours since the day you found me
We could be anything, strangers tonight

Delight in the afternoon
Something classic, something new
Whispering sweet Hail Marys
You know the words, so tell me what to do
How 'bout you bring me to life?

Let the flower in the rain paint the colour of June
Take me back to the place where we met, superblooming
Every day, held in your arms
Lovin' forever, rise and fall

Let the flower in the rain paint the colour of June
Take me back to the place where we met, superblooming
Every day, just like before
Don't let me go
Give me that superbloom

More than just a lovers' game
You and I are one the same
Touch me with sun-kissed memories
You are the one to send me
Into this ecstasy, baby, just hold on tight

Let the flower in the rain paint the colour of June
Take me back to the place where we met, superblooming
Every day, held in your arms
Loving forever, rise and fall

Let the flower in the rain paint the colour of June
Take me back to the place where we met, superblooming
Every day, just like before
Don't let me go
Give me that superbloom

Super, super, super
Give me your superbloom
Super, super, super
Give me that super groove

Super, super, super
Give me your superbloom
Super, super, super
Give me that super groove

I really like the way we move
(The way we move when we move like that)
I really like the way we move
(The way we move when we move like that)
I really like the way we move
(The way we move when we move like that)
I really like the way we move

Now we're in super, superbloom

Let the flower in the rain paint the colour of June
Take me back to the place where we met, superblooming
Every day, held in your arms
Loving forever, rise and fall

Let the flower in the rain paint the colour of June
Take me back to the place where we met, superblooming
Every day, just like before
Don't let me go
