

These Lips

Jessie Ware

It's gonna take two
Two hearts
Two hours
Two more
I'm telling you
That these two lips

In and out of delirious
Everything is so mysterious with you
Back and forth to the beat of us
Ring alarms cos we're heating up this room

Baby, when you touch my body
Everything feels so perfect
Hurry up cos I'm worth it
(I'm worth it, you're worth it)
If you want me, just want me
Show me you're made of magic

Send a signal to the stars
And tell them where we are is where we wanna be

All alone in a fantasy
That's the place you don't have to be with me
Close your eyes, keep them close to me
Satisfy my desires and needs

Baby, when you touch my body
Everything feels so perfect
Hurry up cos I'm worth it
I'm worth it, you're worth it
You're worth it

If you want me, just want me
Show me you're made of magic
Send a signal to the stars
And tell them where we are is where we wanna be

It's gonna take two
Two hearts
Two hours
Two more
I'm telling you
That these two lips
Could do so much more

These two lips can do so much more (They could do so much more)
These two lips can do so much more (So much more)
These two lips can do so much more (So much)
(More) These two lips can do so much more

These lips can turn milk to gold
These lips can soothe body and soul
These lips will take you places that you never thought you'd go
These lips are wanted in 100 countries, maybe more
These lips can testify, (Testify)
Mystify (Mystify)

And if they ever let you down they will be justified (Ooh)
These lips are satisfaction
They set off chain reactions

Send a signal to the stars
And tell them where we are is where we wanna be

It's gonna take two
Two hearts
Two hours
Two more
And I'm telling you
That these two lips
Can do so much more

So much more
So much more
(How much? How much? So much)
So much more

These two lips can do so much more
These two lips can do so much more
These two lips can do so much more
These two lips can do so much
So much more
