

All The Time

Jessy Lanza

This one got away
I hope it's getting better
I'm feeling low today
Tell myself it's not forever
If we do what we do
Just shrug and say whatever
Cause win or lose
In the end none of it matters

When it's all all all all the time
I only want you close to me
When it's all all all all the time
I only want you close to me

I'm cool with everything
While I'm living in a bubble
So safe and tucked away
All I wanna do is love you
And do what I do
I'll just shrug and say whatever
Yeah, If I win or lose
In the end none of it matters

When it's all all all all the time
I only want you close to me
When it's all all all all the time
I only want you close to me
Yeah yeah yeah yeah yeah yeah
