

Enchanted

Jessy

Every night in my dreams
I see you passing by in slowmotion
because of you I'm overwhelmed with emotions
I'm bading with your love
You are my star above

Nana nana nana nana nana nana
Like a thunder in the night
Nana nana nana nana nana nana
With the full moon by your side
Nana nana nana nana nana nana
Take my with you on your flow
Nana nana nana nana nana nana
Don't ever let me go

Whenever we touch I cannot hide
I start to shiver deep inside
Will you come by with sweet caresses tonight
It's like a fantasy
Let me hold you close to me

Nana nana nana nana nana nana
Like a thunder in the night
Nana nana nana nana nana nana
With the full moon by your side
Nana nana nana nana nana nana
Take my with you on your flow
Nana nana nana nana nana nana
Don't ever let me go

I've been enchanted by your magic spell
Now I'm protected save and well
One kiss from you and I can reach the sun
This ride has only just begun

Nana nana nana nana nana nana
Like a thunder in the night
Nana nana nana nana nana nana
With the full moon by your side
Nana nana nana nana nana nana
Take my with you on your flow
Nana nana nana nana nana nana
Don't ever let me go

Nana nana nana nana nana nana
Like a thunder in the night
Nana nana nana nana nana nana
With the full moon by your side
Nana nana nana nana nana nana
Take my with you on your flow
Nana nana nana nana nana nana
Don't ever let me go
