

## Deflated

Jesu

There's only light here  
You give me reason  
You destroyed my fear  
I must stop breathing

[Chorus:]  
The paths that we won't follow,  
Give us hope  
The pills that we won't swallow

Moods change with seasons  
Colors reflect our thoughts  
Others share the same shell  
Lost without your answers  
Hills to get lost in  
Words give us reason  
I still won't follow  
The past gives us our hope

[Chorus]

There's only light here  
You give me reason  
[repeat]
