

Storm Comin' on

Jesu

People yell things
out in the street
listen to this

Men in their dark cars
are whispering
try to entice me
and such
they would kill me

...would

And don't
and don't you know
What would you feel
All above you
The sky will go black
The sky will break

...it's on
you gotta run now
you gotta go fast
...comin' on
storm comin' on now
you gotta get past
...it's on
you gotta run now
you gotta go fast
...comin' on
storm comin' on now
you gotta go back

And don't
and don't you know
What would you feel
All above you
The sky will go black
The sky will break

You gotta run now
you gotta go fast
Storm comin' on now
you gotta get past
You gotta run now
you gotta go fast
Storm comin' on now
you gotta go back

You gotta run now
you gotta go fast
Storm comin' on now
you gotta get past
You gotta run now
you gotta go fast
Storm comin' on now
you gotta go back

Madness was here
Stabbing needles
out this
My spine aches
And I spill myself out
How did
I get to this???

You gotta run now
you gotta go fast
Storm comin' on now
you gotta get past
You gotta run now
you gotta go fast
Storm comin' on now
you gotta go back

You gotta run now
you gotta go fast
Storm comin' on now
you gotta get past
You gotta run now
you gotta go fast
Storm comin' on now
you gotta go back

Go back
Go back
Go back
Go back

Go back
Go back
Go back
Go back

Go back
Go back
Go back
Go back
