

For No Other Reason

Jesus Culture

Just to know You
Is all I'm really after
Just to be known by You
To behold You
And draw a little closer
Just to be held by You
Just to be held by You

Again and again, You have my attention
Until the end, You have my affection
Forever, I will come
For no other reason
But You and You alone
For no other reason

Just to see You
To look upon Your beauty
I live for this one thing
Captivated
My heart in awe and wonder
I live to see Your face

Again and again, You have my attention
Until the end, You have my affection
Forever, I will come
For no other reason
But You and You alone
For no other reason
Again and again, You have my attention
Until the end, You have my affection
Forever, I will come
For no other reason
But You and You alone
For no other reason
You and You alone

You are the miracle
That makes the seas move
And all I need, God
I find in You
You're every victory
You're every breakthrough
And all I need, God
I find in You
You are the miracle
That makes the seas move
And all I need, God
I find in You
You're every victory
You're every breakthrough
And all I need, God
I find in You

Again and again, You have my attention
Until the end, You have my affection
Forever, I will come
For no other reason

But You and You alone
For no other reason
Again and again, You have my attention
Until the end, You have my affection
Forever, I will come
For no other reason
But You and You alone
For no other reason...

But You and You alone
Have my attention
Oh, You and You alone
Have my deepest devotion
Oh, You and You alone
Are my hope forever
Oh, You and You alone
You alone

Again and again, You have my attention
Until the end, You have my affection
Forever, I will come
For no other reason
But You and You alone
For no other reason
