

# Oppressor

Jesus Piece

Corrupt system cripples youth  
Fake propaganda while they hide the truth  
Stunted progress while the others grow  
Why put up with that?  
What will be the straw that breaks the camel's back?

I refuse to bite my tongue  
The revolution has begun  
I refuse to die next  
Lift your boot from my fucking neck

Oppressor, your time has come  
Oppressor, you're on the run

Refuse to become another target, another victim  
Refuse to be labeled another thug or animal

Let me live free
